3. After you complete your FREE hearing screening, present this flyer to receive your free booklet of stamps or free pack of hearing aid batteries

Frequently Asked Questions

1. Who is Beltone?

Founded in 1940, Beltone remains the most trusted brand for quality hearing products and care among adults aged 50 and older. At Beltone, we believe better hearing provides a better life – at any age. For over 70 years, we've devoted ourselves to giving each patient the best listening experience possible.

2. What is the office visit like?

At Beltone, we use a precise, multi-step process that helps us get to know you and personalize your hearing care. If we do find a hearing loss treatable with hearing aids, we'll recommend the hearing aids best for you, based on several factors. With so many Beltone hearing aids, choosing the right style and model is easy.

3. What does a hearing test consist of?

Your Beltone hearing care professional will guide you through the steps of a thorough hearing evaluation, including:

- A visual examination of your ear
- Air and bone conduction testing
- Word discrimination testing

4. What are some warning signs of hearing loss?

- People seem to mumble more frequently.
- You experience ringing in your ears.
- You often ask people to repeat themselves.
- Your family complains that you play the radio or TV too loudly.
- You no longer hear normal household sounds, such as the dripping of a faucet or the ringing of a doorbell.
- You have difficulty understanding a conversation when in a large group or crowd.
- You have trouble understanding all the words in a conversation.
- You find telephone conversation increasingly difficult.
- You have trouble hearing when your back is turned to the speaker.
