

RMS

Course Progression from Grade 8 Honors Algebra 1

Important Information Pertaining to Placement

All students enrolled in Algebra 1 will take the Algebra 1 Keystone Exam in May.

High School Course Progression

1. Placement into Seminar Geometry in 9th grade requires an average of 90% (A-).
2. Placement into Honors Geometry in 9th grade requires an average of 82.5% (B).
3. Placement into Advanced Geometry in 9th grade requires an average of 80% (B-).
4. Since Algebra 1 includes foundational skills needed for success in higher level math courses, if a student scores below 80% in Algebra 1, the teacher will recommend that the student retakes Algebra 1 in 9th Grade. Students may also elect to take Algebra 1 in summer school (please refer to RHS summer school criteria.) Please note that Honors level Algebra is not available in 9th grade.

Other Important Information

Algebra 1 Honors students who have an average score below 75% at the end of the first or second marking period will be moved into Course 3.

Algebra 1 Honors students who have an average score between a 75-79% at the end of the first or second marking period may have the choice of completing Algebra 1 or may select to move to Course 3. Students will be recommended to repeat Algebra 1 the following year if their average is below 80% (B-) at the end of the year.
